

To help with the survey requirements...here is a list of the Meaningful Use Reports aligned with the Standard/Factor/Element the report meets or helps to meet. We've talked about MU reports during our assessment, I hope that this format of just the MU reports will help serve as a check list to ease some of the survey pain. Maybe you could train your new AA to help pull these?

Please check the specific standard/factor and element in the index to see the percentage you need to meet the requirement and if you need 3 months or 12 months of data in the report - I just did this quickly - I can go back and pull the report time frame - just let me know:

NCQA MU Report

1C, 1 Core MU 11

1C, 2 Menu MU 5

1C, 3 Core MU 13

2A, 1-5 Core MU 7, however if you can pull a report out of your EMR for more factors (6-12) to meet 2A then use that report

2B, 1 Core MU 3

2B, 2 Core MU 6

2B, 3,4,5,6,7 Core MU 8

2B, 8 Core MU 9

2B, 9 Core MU 5

3A, 1 Core MU 11 - your first important condition

3D, 1 Menu MU 7 (to use as support for chart review on medication management)

3E, 1 Core MU 4

3E, 3, 6 Core MU 1

3E, 4 Core MU 2

4A, 2 Menu MU 6 (if your EHR has the logic to identify educ resources for pt)

5A, 9 Menu MU 2

5B, 6 Core MU 14

5B, 7 Menu MU 8

5C, 8 Menu MU 8

6F, 1 Core MU 10 (if you report data externally)

6F, 3 Menu MU 6

6F, 4 Core MU 10
