

Avery Wood MD LLC PO Box 726
10 Bank St North Bennington, VT 05257 Phone and Fax 888-421-6801

Dr Avery Wood and Dr John Hearst of Avery Wood MD LLC are participating in a Medicare Shared Savings Program Accountable Care Organization

What's an Accountable Care Organization (ACO)?

- An ACO is a group of doctors and other health care providers who voluntarily work together with Medicare to give you high quality service and care at the right time in the right setting. Dr Hearst and Dr Wood are participating in OneCare a Medicare Shared Savings Program ACO.
- An ACO is **not** a Medicare Advantage Plan, (like an HMO or PPO), or an insurance plan.
- ACOs don't change your Medicare benefits.

How will an ACO help my doctor coordinate my care?

- Your doctors will have a more complete picture of your health through talking with your other doctors.
- To help you get better, more coordinated care, Medicare will share certain health information with us about the care you get from your doctors and other health care providers unless you ask Medicare not to share it. Medicare may also share your health information with other ACOs in which your other doctors or health care providers participate.
- Dr Wood and Dr Hearst may continue to recommend that you see particular doctors for your specific health needs, but it's always your choice about what doctors you see or hospitals you visit.

What do I need to do?

- If you want Medicare to share information about the health care you received with OneCare or with other ACOs in which your other doctors or health care providers participate, **there's nothing more you need to do.**
- If you **do not** want Medicare to share your health care information, **you need to call 1-800 MEDICARE (1-800-633-4227)** and tell the representative that your doctor is part of an ACO and you don't want Medicare to share your health care information. TTY users should call 1-877-486-2048.
- If you change your mind in the future, you can call 1-800-MEDICARE and tell the representative what you have decided. We can't communicate with Medicare on your behalf.
- Even if you decline to share your health care information, Medicare will still use your information for some purposes, like assessing the financial and quality of care performance of the providers participating in ACOs. Also, Medicare may share some of your health care information with ACOs when measuring the quality of care given by health care providers participating in those ACOs.

Questions?

More information is available in our policy manual in our waiting room and on our website:
www.averywoodmd.net/frequently-asked-questions.html

If you have questions or concerns, please let us know so that we may set some time to address them with you.

You can also call 1-800-MEDICARE and tell the representative you're calling to learn more about ACOs, or visit Medicare.gov/acos.html.

Medicare Beneficiary Information Notice

Dr. Avery Wood and Dr. John Hearst of Avery Wood, MD LLC are participating in a Medicare Shared Savings Program Accountable Care Organization

Accountable care Organizations (ACOs): Providing Better, Coordinated Care for You

Dr. Avery Wood and Dr. John Hearst of Avery Wood, MD LLC are participating in OneCare Vermont, a Medicare Shared Savings Program ACO. An ACO is a group of doctors, hospitals and/or health care providers working together with Medicare to give you better, more coordinated service and health care. Think of an ACO as a team made up of your doctors and other health care providers. We are working together to share important information and resources about your individual needs and preferences.

Doctors and hospitals in an ACO communicate with you and with each other to make sure that you get the care you need when you're sick, and the support you need to stay healthy.

You Can Still Choose Any Doctor or Hospital

Your Medicare benefits aren't changing. ACOs are not a Medicare Advantage plan, an HMO plan, or an insurance plan of any kind. You still have the right to use any doctor or hospital that accepts Medicare, at any time. Your doctor may recommend that you see particular doctors or health care providers, but it's always your choice about what doctors and providers you use or hospitals you visit.

Having Your Health Information Gives Us a More Complete Picture of Your Health

To help OneCare Vermont give you better, coordinated care, Medicare will share information with us about you care. The information will include things like dates and times you visited a doctor or hospital, your medical conditions, and a list of past and current prescriptions.

This information from other health care providers will give Dr. Avery Wood and Dr. John Hearst of Avery Wood, MD LLC and other health care providers in ACOs a more complete and up-to-date picture of you health. Over time, you may notice that you don't have to fill out as many medical forms that ask for the same information, you don't need to repeat medical tests because your results are shared among your health team, and other benefits because your providers are communicating with one another.

If you choose to let Medicare share your health care information with OneCare Vermont, it may also be shared with other ACOs in which your doctors or health care providers participate. If you don't want your health care information shared, you can ask Medicare not to share it.

Your Privacy is Very Important to Us

Just like Medicare, ACOs must put important safeguards in place to make sure all your health care information is safe. ACOs respect your choice on the use of your health care information for care coordination and quality improvement.

Yes, share my information: If you want Medicare to share information about the health care you received with OneCare Vermont or with other ACOs in which your other doctors or health care providers participate, **there is nothing more you need to do.**

No, please don't share my information: If you do not want Medicare to share your health care information, you need to do the following:

Call 1-800-MEDICARE (1-800-633-4227). Tell the representative that you doctor is part of an ACO and you do not want Medicare to share your health care information. TTY users should call 1-877-486-2048.

If you change your mind in the future, call 1-800-MEDICARE and tell the representative what you have decided. We can't communicate with Medicare on your behalf.

Even if you decline to share your health care information, Medicare will still use your information for some purposes, like assessing the financial and quality of care performance of the providers participating in ACOs. Also, Medicare may share some of your health care information with the ACOS when measuring the quality of care given by health care providers participating in those ACOs.

Questions?

If you have questions or concerns, please let us know so that we may set some time to address them with you.

You can also call 1-800-MEDICARE and tell the representative you're calling to learn more about ACOs, or visit Medicare.gov/acos.html.
